Captured purchase transaction

Customer Case Intelligence | Fictional demonstration

Captured purchase transaction Case: CASE-1006 | Order: ORD-24006 Snapshot: 2026-10-17

Transaction PAY-0006. Order ORD-24006. Captured purchase: USD 999.00. Currency USD. Status captured. This is a debit, not a refund.

Record scope and provenance This fictional payment export belongs to CASE-1006, order ORD-24006, and the snapshot ending October 17, 2026. The originating team retains ownership of its record. Source timestamps describe recorded events; a later export timestamp does not mean an earlier action was repeated. Historical attachments are retained to explain what the employee could see at each contact. This export is a simulation, contains no real customer information, and is not connected to any institution. ## Capture reconciliation Authorization and capture are separate states. The captured purchase is a debit. A matching amount in an approval queue is not a customer credit, and a voided authorization should not be counted as a submitted refund. For this export, the controlling references are case CASE-1006, order ORD-24006, and device DEV-88006. Preserve the source date when forwarding the evidence, and do not replace the recorded status with an employee expectation.

Settlement export boundaries The payment export covers the captured transaction and its original instrument. Bank posting is not established by a merchant settlement export. Reviewers must distinguish an internal batch identifier from a network trace reference. For this export, the controlling references are case CASE-1006, order ORD-24006, and device DEV-88006. Preserve the source date when forwarding the evidence, and do not replace the recorded status with an employee expectation.

Financial allocation table The control total equals the components; it is not an additional charge. These lines allocate the amount already recorded above.

Line	Component	Amount USD	Treatment
1	Device allocation A	933.65	Included
3	Tax allocation	65.35	Included
4	Total for this record	999.00	Control total; do not sum twice
